- allow all students access to a broad and diverse range of subjects to choose from
- deliver an educational program that provides a range of opportunities and rich learning experiences for all students
- allow subjects offered within the elective component of the school and/or require student consumption or possession of materials to be delivered effectively e.g. Food Technology, Product Design and Technology, Media, Art and Studio Art etc.
- allow students to have access to subjects that cater for particular interests or prepare for particular career areas e.g. Food Technology, Product Design and Technology etc.
