Dear parent/guardian,

Mordialloc College is looking forward to another great year of teaching and learning and would like to advise you of Mordialloc College's voluntary financial contributions for 2022.

Schools provide students with free instruction to fulfil the standard Victorian curriculum and we want to assure you that all contributions are voluntary. Nevertheless, the ongoing support of our families ensures that our college can offer the best possible education and support for our students. We want to thank you for all your support with your financial contributions to date. This has made a huge difference to our school and the programs we can offer.

Within the College this support has allowed us to

- ensure that students who attend Mordialloc College receive an education of a commensurate standard and diversity as compared to that being delivered by other schools in the local neighbourhood
- allow all students access to a broad and diverse range of subjects to choose from
- deliver an educational program that provides a range of opportunities and rich learning experiences for all students
- allow subjects offered within the elective component of the school and/or require student consumption or possession of materials to be delivered effectively e.g., Food Technology, Product Design and Technology, Media, Art, and Studio Art etc.
- allow students to have access to subjects that cater for interests or prepare for particular career areas e.g., Food Technology, Product Design and Technology etc.
- allow students to have enhanced digital learning opportunities with access to faster WIFI and internet
- ensure that the school population is not disadvantaged when high-cost subjects are offered
